University College
London Medical School
(UCLMS), UK

Academic Medical Centre
University of Amsterdam
The Netherlands

Weill Cornell Medicine
New York, USA

International
AIDS Society

The programme is of interest to clinical investigators from across the globe to review current research and to discuss its implications for HIV management strategies. Although there has been steady progress in HIV drug treatment, significant challenges still remain. In addition to looking at these treatment issues, the Congress is moving into areas, such as prevention, with time in the programme focused on pre-exposure prophylaxis (PrEP) and issues across Europe and beyond. The important role of people living with HIV in treatment decisions and self-management continues to feature, and we look forward to a number of perspectives in the programme from the community.

28–31 October 2018 | SEC, Glasgow, UK

ORGANISING COMMITTEE

Andrew Phillips (Chair)

University College London Medical School, London, UK

Linda-Gail Bekker

The Desmond Tutu HIV Centre, University of Cape Town, South Africa

Alexandra Calmy

Geneva University Hospital, Geneva, Switzerland

Roy Gulick

Weill Cornell Medicine, New York, USA

Karine Lacombe

Hospital Saint-Antoine, Paris, France

Peter Reiss

Academic Medical Center, University of Amsterdam, The Netherlands

Alain Volny-Anne

Bangkok, Thailand

Ian Weller

University College London Medical School, London, UK

Ian Williams

University College London Medical School, London, UK
